

INTRODUCTION

- Frutanya is an agribusiness company specialized in producing and exporting premium fresh fruits and vegetables. With farms that have been operating for more than 15 years, Frutanya builds on Egypt's rich agricultural heritage, favorable climate, fertile soils, and strategic location to deliver high-quality produce to international markets.
- Backed by long-standing farming expertise, the company is driven by innovation and a strong commitment to excellence. Our focus is on cultivating and exporting fresh table grapes, strawberries, citrus, pomegranates, and a growing range of vegetables.
- Frutanya's mission is to build trusted partnerships worldwide by consistently providing fresh, safe, and sustainably grown produce that meets global quality standards. With an ambitious vision for expansion, Frutanya aims to become a trusted name in the global fresh produce industry.

OUR VISION

- Our mission is to enhance land productivity and increase the nutritional value of the food we produce, while preserving and improving the environment.

- We strive to boost agricultural productivity and deliver more nutritious food, with a strong commitment to environmental sustainability.
